

# Frontend Developer

**Company:** TechNova Solutions Pvt. Ltd.

**Location:** Kolkata, India / Hybrid    **Employment:** Full-time

**Experience:** 3+ years of professional frontend development experience.

## Job Summary

We are looking for a Frontend Developer to build responsive, accessible, and high-quality web applications. The role involves working closely with UI/UX designers, backend engineers, and product teams.

## Key Responsibilities

- Develop reusable and maintainable UI components using React.js and modern JavaScript.
- Build responsive interfaces using HTML5, CSS3, Tailwind CSS or Bootstrap.
- Integrate REST APIs and handle loading, error, and empty states.
- Work with designers to convert Figma designs into production-ready interfaces.
- Improve frontend performance, accessibility, and cross-browser compatibility.
- Write readable code, participate in code reviews, and troubleshoot production issues.
- Use Git-based workflows and collaborate with backend and QA teams.

## Required Skills

- React.js
- JavaScript (ES6+)
- HTML5 and CSS3
- TypeScript
- REST API integration
- Git and GitHub
- Responsive web development

## Preferred Skills

- Next.js
- Tailwind CSS
- Redux or another state-management library
- Figma
- Jest or React Testing Library
- Basic understanding of CI/CD

## Education

Bachelor's degree in Computer Science, Information Technology, or a related field, or equivalent practical experience.

## What We Value

Clean and maintainable code, clear communication, practical problem solving, collaboration, and a strong focus on delivering reliable production software.
